

Not being overly emotional as the lower aspects can dictate those issues which can be self-centeredness, worrying, lack of moral courage

This ray represents someone artistic, full of creative aspirations

- 9th Ray and Chakra – IN THE COLOR OF BLUE-GREEN FOR JOY AND ATTRACTION TO THE BODY OF LIGHT integrating with our Base Chakra. The 9th Ray is overlit by Lady Nada, Creation and Dissolution along with Mother Mary for Acceptance of Joy.

Once the 3rd dimensional Ray of #4 is fully incorporated into the Root area, then it is ready for the next phase of development which is the Attraction to the Body of Light.

Harmony and Balance allows for the creation of this to occur.

The emotional imbalance has turned to fully accessing the power within as the process of resurrection has taken place. All those lower parts within the Base have now been changed into the Crystalline Light from the Harmony and Balance to prepare oneself for the Blue-Green. The base color of the root is now infused with many colors representing the crystalline as it changed from the Emerald Green on a planetary level. The body is now ready to be fully infused with the Blue Green Essence.

The root now becomes a magnet for the energies to bring forth the Body of Light as the physical aspects that are very important in the root are now in the creation of the self. The emotions do not take control over the body but yet the body helps to balance out the emotions.

Lady Nada represents Creation and Dissolution – she assists individuals in fully removing the negative energies in order to receive Divine Love which in essence is the actualization of the Light Body. The Light Body cannot be fully integrated until one is ready to let go of the negative aspects of the root area. Thus this is another journey into the actualization the Body of Light

Mother Mary represents the Joy and essence of the completeness when One is in Joy. Both Lady Nada and Mother Mary work hand-in-hand to bring forth these aspects for the Attraction to the Body of Light.

Attraction = meaning to be able to bring towards you. Please know that this Ray does not mean you are going to fully integrate your Light Body but you are in the next phase of allowing the attraction to occur.

Aspects:

Joy, Creation with the Self, Acceptance, Moving from Hope into Actualization, Love and Light within, Potential, Stability, Doorways opening with the Light within the Body, old being removed and resurrected

- 17TH RAY and Chakra IN THE COLOR OF MULTI-WHITE AND HAS TO DO WITH UNIVERSAL LIGHT integrating with the 1st, and 9th chakras as one.

Lord Melchizedek is the overlit energy for incorporating the Universal Light as he is the Universal Logos. He oversees all initiates onto the pathway of accelerating oneself through the frequencies. We have traveled through the path of the 4th Ray of Harmony and Balance to fully actualize the essence of emotional stability, and then traveled into the 4th dimension of Attracting the Body of Light. This Ray now is about fully incorporating Universal Light which means that we are moving into Universal Consciousness within the Root Chakra.

He is accompanied by **Sanat Kumara** who headed the Brotherhood of White Light. Sanat brings for the ability to fully help each individual to access the Universal Light through the expansion of their essence within the Root. He also imparts his knowledge and one's Soul's Essence from the lifetimes of lightwork in other planes of existence. It affects the walk on the Earth as it is being fully integrated.

So the journey continues with the rays into the 5th dimension. All of these rays are going to assist in bringing for the actualization of our essence we call the IAM. This is the grounding cord necessary for the integration of the Light.

Aspects:

Connection to the 5th dimension physically through the Root or Base chakra

Light Frequency within the physical

Regeneration, Vitality, Acceptance of One's Divinity within the physical

This Ray has to do with induction of the Melchizedek Priesthood which we will include an attunement to assist in the activations with Lord Melchizedek.

Decree - Embracing the 5th Dimensional Actualization within My Base Chakra

I am now ready to full experience the balance of my emotions,
My Base or Root Chakra has been in turmoil for eons of time;
Sometimes I had lack of confidence due to fears and worries,
I experienced all the emotions from my past lives arising out of my Being,
I fully accept my Divinity to enfold within me.

I call upon Master Serapis Bey, the Ray Chohan of the Ray of Balance & Harmony,
He stands before me with Elohim Masters Purity & Astrea along with Archangels Gabriel & Hope
I take a sigh of relief as they impart to me the ability to fully accept compassion, hope, and physical
courage;
I see the Cosmic Ray of Crystalline Light intermingled with some sparkles of Green,
It flows into my root and I feel all my worries being dissipated;
Each of these Beings is now walking with me upon this beautiful pathway of Light,
I now am met by Lady Nada of Creation and Dissolution,
With a look through her eyes she fully erases any negative feelings I might have been holding onto;
I then see Mother Mary as she reaches her arms onto me in a beautiful embrace,
I feel the essence of Joy full permeating through my entire being,
I now feel the Attraction of the Light Body swirling within my Root Chakra,
With the color of Blue-Green as the deepness of the Sea.

We then walk farther down the pathway as it is strewn with White Light,
Coming towards me are two wonderful Beings out of the mist of the purest essence I have seen;
Lord Melchizedek and Sanat Kumara reach out their hands onto mine,
As it is now time to fully embody the Universal Light as they blend with the other two Rays and Chakras;
I feel the swirling Multi-White Light blending with the Crystalline colors along with the Blue Green,
I am now embodying all three chakras within the One;
As I fully feel the connection to the 5th dimension with my Physical Essence,
I embrace the feelings of Regeneration as I am now Vitalized ,
As I Accept My Divinity within me;
The swirls of color now flow through me into my legs and down into my Earth Star,
As it becomes more grounded onto Gaia;
I feel the deepness of my connection of my Highest Essence being fully integrated onto the New Earth.

I Am that I AM that I AM.
